1. This application will not be processed unless an 8 1/2" x 11" site map (using 7.5 min. USGS topo maps) is attached to (the front side of) this application. This map should clearly show the affected area and location of the treatment ponds with the outfalls labeled 01, 02, etc. If the location or number of the ponds is changed, a revised map should be submitted to OEPA NPDES Permit Records Section.
2. This application should be submitted not later than two weeks before submitting the mining application to ODNR. If significant adverse public reaction is anticipated, this application should be submitted 90 to 180 days in advance.
3. This application is only for the area included in a single ODNR mining application.
4. The wastewater discharge permit resulting from this application will NOT include authorization to discharge sanitary wastes.
5. This application is for the dual purpose of obtaining both a NPDES Permit and a Permit to Install for the location cited above.

I certify under the penalty of law that I have personally examined and am familiar with the information submitted in the attached document and based on my inquiry of those individuals immediately responsible for obtaining the information, I believe the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

RE: BELMONT COUNTY  
WYOMING POCAHONTAS  
COAL COMPANY  
NPDES PERMIT

Ms. Ellen Loper  
Jack A. Hamilton & Associates, Inc.  
Box 471, 342 High Street  
Flushing, OH 43977

Ms. Loper:

I am returning the enclosed NPDES application for Bennoc, Inc. with the following recommendation on how to handle the overlapping permits.

It is my understanding that Bennoc, Inc. is permitting a strip mine adjacent to and overlapping some of the area permitted under Wyoming Pocahontas Coal Co. (WPCC) permit OIL00091\*ED, which covers the surface effects of an underground mine. The WPCC permit area is inactive and reclaimed at the present. The NPDES permit is being maintained for potential future use of the site. The area to be permitted by Bennoc includes outfall #0011 on the WPCC permit.

It is recommended that OIL00091\*ED be modified to drop the #0011 outfall. I have enclosed an Application for Modification of an Ohio NPDES Permit. Please complete it and return it to this office with a check for \$100 to cover the application fee.

The NPDES Application for Bennoc, Inc. that is being returned should be submitted to our Central Office in Columbus with a check for \$100 to cover the application fee. You should add a short explanation that an application to modify NPDES Permit OIL00091\*ED will be submitted to Southeast District Office (SEDO) to delete outfall #0011 and that this outfall should be included in the surface mine NPDES permit. The address for Central Office on the back of the Bennoc application form.

I hope this clarifies the situation. I have included a copy of the new fee information sheet for future reference. If you have any questions, please contact me at your convenience.

Sincerely,

Ms. Abbot Stevenson

REMARKS DEAR ABBOTT, THIS IS THE AREA WE DISCUSSED ON THE  
PHONE ABOUT A MONTH AGO. OUTFALL OIL IS COVERED UNDER  
AN EXISTING N.P.D.E.S. BENNOG WILL BE MODIFYING THIS  
STRUCTURE (ENLARGING SIGNIFICANTLY) FOR NECESSARY STORAGE  
CAPACITY. COULD WE PERMIT IT UNDER BENNOG'S ENCLOSED  
N.P.D.E.S., AND THEN MODIFY THE EXISTING N.P.D.E.S. TO  
DELETE THIS OUTFALL? THIS SEEMS LIKE LESS PAPERWORK  
TO ME, HOWEVER, PERHAPS ON YOUR END - IT WOULD  
CREATE MORE. I HAVE NO EXPERIENCE WITH TRANSFERRING  
A POND TO ANOTHER CO. LET ME KNOW WHAT YOU THINK!
